Call Out Letter

INDIVIDUAL

This is to notify you that I will not work today, September 30, 2022, in response to the elimination of reproductive freedoms for millions of American workers.

Reproductive justice is a healthcare issue and a workplace issue. I am taking this action to demand that:

STEP 01

Every worker has access to the affordable healthcare they need, including the right to an abortion

STEP 02

Every worker earns a living wage, so that no child will ever go hungry

STEP 03

Every worker can count on their employer to oppose any attempt to criminalize our private medical decisions

STEP 04

Every worker is protected from discrimination and termination for being pregnant, or for choosing to end a pregnancy

I further notify you that I make an unconditional offer to return to work on October 1, 2022, or for my next scheduled shift.

My decision not to work on September 30 is protected by Section 7 of the National Labor Relations Act. You are prohibited from taking any adverse action against me, including refusing to allow me to return to work, or impose any conditions on my return to work. If you retaliate against me for exercising my rights, I will immediately file charges with the National Labor Relations Board.
